DOCUMENT RESUME

ED 039 351 VT 011 007

TITLE	Directory of Public Schools Offering Technical Education Programs, Fiscal Year 1969.
INSTITUTION	Office of Education (DHEW), Washington, D.C. Div. of Vocational and Technical Education.
PUB DATE	Dec 69
NOTE	131p.
EDRS PRICE	EDRS Price MF-$0.75 HC-$6.65
DESCRIPTORS	Developmental Programs, *Directories, Post Secondary Education, Pretechnology Programs, Supplementary Educational Centers, *Technical Education, *Technical Institutes

ABSTRACT

This directory was prepared to provide information on technician education programs to vocational educators, employers, and cooperating agencies. It lists the names of public educational institutions, their locations, and their technical programs. The schools are listed alphabetically by municipality. Schools, programs, and some nontechnical programs reported by the States for the fiscal year 1969 are included. Types of courses and programs include secondary preparatory, Postsecondary preparatory, supplementary, and student development (pretechnical) for 1 year or less. (Author/GR)

DISCRIMINATION PROHIBITED - Title VI of the Civil Rights Act of 1964 states: "No person in the United States shall, on the ground of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance." Therefore any program or activity receiving financial assistance from the Department of Health, Education, and Welfare must be operated in compliance with this law.

ED0 39351

PREFACE

This directory was prepared to provide information on technician education programs to vocational educators, employers, and cooperating agencies.

It lists the names of public educational institutions, their locations, and their technical programs. The schools are listed alphabetically by States and within each State alphabetically by municipality. The program may or may not have been supported by Federal funds under the Vocational Education Act of 1963, as amended in 1968. The directory shows schools and programs reported by the States through various channels, or shown in publications, for fiscal year 1969. It is possible that some schools or programs may inadvertently have been excluded. A number of nontechnical programs reported by the States are also included.

Types of courses and programs are shown after each school entry. "S" designates a preparatory program at the secondary level, "PS" designates a postsecondary preparatory program, and "E" designates a supplementary course. The list of supplementary courses is probably incomplete because it is common practice to offer courses as requested in the community the school serves.

A preparatory program provides preemployment preparation to persons with little or no previous education or experience in the field of work being taught. Supplementary courses provide special instruction for persons who usually are employed and generally have had some experience in the work being taught.

Student Development (Pretechnical) programs are listed for the first time. Those which provide up to two semesters or three quarters of special, individualized, remedial, or compensatory preparation for students who need it to successfully master the technology of their choice are shown as Year, and those which are of less than an academic year are labeled Short.

The code used in the following pages is, therefore:

Secondary Preparatory Program	S
Postsecondary Preparatory Program	PS
Supplementary Program	E
Student Development (Pretechnical)	Year
or	
Student Development (Pretechnical)	Short

December 1969

Leon P. Minear, Director
Division of Vocational
and Technical Education
